

Section 66-135 of the Gurnee Municipal Code requires each parcel of property requesting access to a public street to meet specific construction requirements.

**PROPER INSTALLATION IS THE RESPONSIBILITY OF THE PERMIT HOLDER**

**Construction Requirements:**

**Materials:**  
 Asphalt Drive: 8 inch aggregate base with 2" bituminous surface.  
 Concrete Drive: 6 inch non-reinforced concrete, 6 bag mix, air entrained, no base course required.

**Maximum Grade:**  
 10% residential  
 8% non-residential

**Distance to nearest Intersection:**  
 50' minimum residential  
 100' minimum non-residential

Curb and gutter required where access is taken from curb and gutter streets.

Note: Questions regarding construction of driveways on public property should be directed to the Village Engineer.
